

About

FEIZY

WE'RE PROUD TO PARTNER WITH YOU

We're the Designers & Manufacturers.

In-house, turnkey design and manufacturing resources allow Feizy to expedite the production lifecycle, delivering your product before many of our competitors have even delivered designs to their contract-based manufacturers. Our corporate design team is in constant communication with domestic and overseas facilities, including our company-owned manufacturing facility. There we power-loom our own rugs, ensuring that colors, designs and textures are always on-trend. Our direct manufacturing capabilities allow us to efficiently and effectively produce the most inspired, highest-quality merchandise for our customers.

We're Artisans Supporting Artists.

From the designers that imaginatively place our products to the weavers that deftly craft each rug in our line, Feizy has a long history of supporting the art of rug making and the artistry of the people building beautiful spaces from the rug up. The Feizy family has set the industry standard for marrying amazing quality to design. Using skilled craftsmen across three continents, the company remains committed to pushing the envelope of new constructions while perfecting and preserving the art of rug making as we know it.

We're a Family Providing for Families.

In the least developed countries where we manufacture, one child out of every four is involved in some form of dangerous labor. Feizy is committed to ending this practice. Our facilities never use child labor. Moreover, we proudly support The Global Fund for Children (GFC), an organization empowering groups that address the root causes of the issue. In partnership with GFC, Feizy is helping to create opportunities for children regardless of race, class or gender. With the help and support of this amazing organization, Feizy hopes to see the end of child exploitation in developing nations.

FEIZY VALUE PROPOSITION

The right solutions to increase your margin

AGILITY

Agency-level marketing power and digital development

OWNERSHIP

Ongoing engagement to optimize your sales

LOYALTY

Incentive programs to build your business

THE 2018 COLLECTIONS

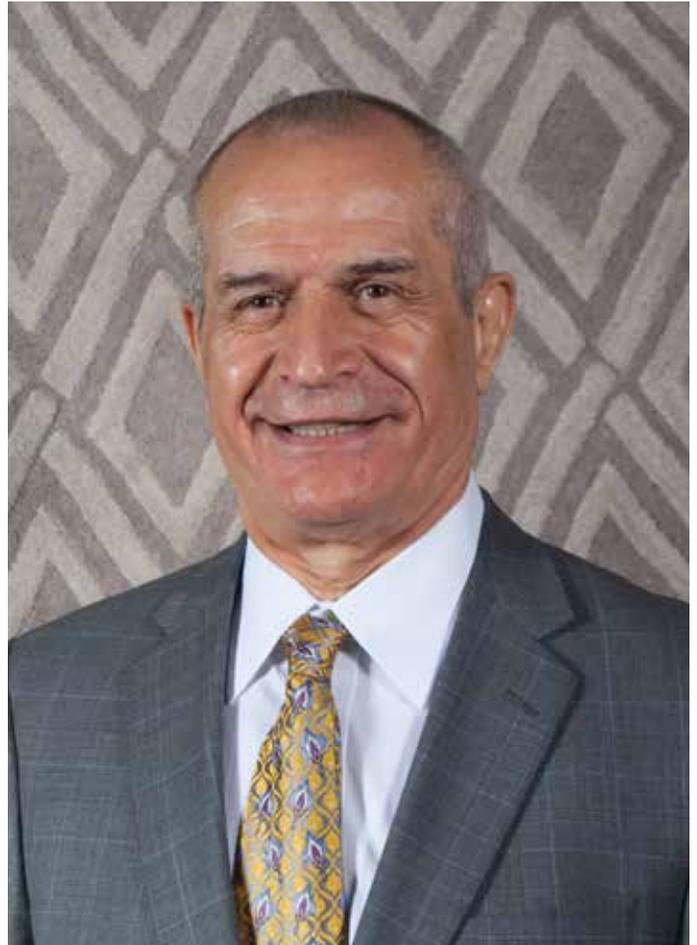

Embracing a family tradition of four generations, Feizy Rugs continues to bring artistry to interior designs by building on exceptional quality standards, unsurpassed service and commitment to excellence and constant innovation. Our family has been buying, selling, manufacturing and collecting fine, handmade rugs for over 40 years, and this year I'm proud to bring you our 2018 line of hand-knotted, hand-tufted and machine-made rugs.

The Fine Collection comprises the highest caliber, museum quality rugs in an array of decadent hues, textures and styles. Each piece is a handmade work of art using opulent fibers and representing the impeccable craftsmanship synonymous with the Feizy brand. Our Lifestyles Collection spans the construction gamut, providing an expansive variety of style and luxury designs at any price.

Along with our incredible collections, we're pleased to provide more revenue-building programs designed to increase your margin. Compelling incentives like SmartRewards™ for Designers, allow you to earn dollars for every Feizy rug sold. The TotalCare™ Rug Protection program offers a warranty that is transferable to your customers. Our state-of-the-art merchandising solutions help you sell more rugs in less space. Other programs, like our Designer Sample Program, empower our partners with significant resources needed for success.

We appreciate your valuable partnership and look forward to building a profitable year together.
